DESCRIPTION	Gentle isotonic saline that moisturizes dry nasal passages and relieves dry, crusty, inflamed nasal membranes due to allergies and colds.	Gentle isotonic saline mist that moisturizes dry nasal passages and relieves dry, crusty, inflamed nasal membranes due to allergies and colds.	Hypertonic saline mist that helps reduce nasal swelling and congestion due to sinonasal surgery, allergies, rhinitis, colds and sinusitis.	Non-greasy moisturization to soothe dry noses due to: colds, allergies, low humidity, flying, epistaxis, sinusitis, CPAP or oxygen therapy.	Non-greasy moisturization to soothe dry noses due to: colds, allergies, low humidity, flying, epistaxis, sinusitis, CPAP or oxygen therapy.	Non-greasy moisturization to soothe dry nasal and sinus passages due to: colds, allergies, low humidity and irritants.	Wash away allergens and contaminants to clear your nasal passages and restore nasal moisture.	Wash away allergens and contaminants to clear your nasal passages and restore nasal moisture.	A nasal decongestant with propylhexedrine to temporarily relieve nasal congestion due to colds, hay fever or other upper respiratory allergies.
DIRECTIONS	For infants (nose drops): Hold bottle upside down. For older children (spray): Hold bottle upright. Give short, firm squeezes into each nostril.	To spray, hold bottle upright and give short, firm squeezes in each nostril as needed. Also available as drops. For nose drops, hold bottle upside down.	Hold head upright and squeeze twice in each nostril. If desired, sniff deeply while squeezing bottle. Use 2 or 3 times daily as needed, or as recommended by your doctor.	Apply Ayr Gel around nostrils and under nose. Ayr Gel may be placed in nostrils to help relieve discomfort. Use during the day and at bedtime to prevent drying and crusting. Use as needed.	Apply gel inside of first nostril. Do not insert swab deeply enough to enter the sinus cavity. Remoisten swab in packet and apply inside second nostril.	Remove cap and safety clip. Prime pump several times before first use. Spray once into each nostril. Wipe nozzle clean after use.	Use once or twice per day or as directed by your physician. Children under 6 consult a physician before use. One kit for hypertonic, isotonic or pediatric solution.	Use once or twice per day or as directed by your physician. Children under 6 consult a physician before use. One kit for hypertonic, isotonic or pediatric solution.	Adults and children (6-12 years) with adult supervision: 2 inhalations in each nostril not more often than every 2 hours. Children under 6: consult a doctor.
